DRAFT

## 2. Management Summary

This review covered 3 GST registration(s) of Helix Diagnostics Manufacturing Private Limited for the period 01/04/2026 to 30/06/2026. It examined imports & customs, reverse charge, e-way bill, gst ledgers & cash flow, exports, lut & icegate, fixed assets & capital goods and the periodic reconciliations. 6 observation(s) have been raised. The quantified financial impact is set out below.

### Financial Impact at a Glance

| Obs. | Basis of the figure | Amount (₹) | Nature |
|---|---|---|---|
| **A. Input tax credit wrongly availed — to be reversed** | | | |
| 1 | IGST credit availed on a nil-duty FTWZ / warehoused bill of entry — 8047642 | 8,77,051 | Cash outflow |
| | **Sub-total — A** | **8,77,051** | |
| **B. Reverse charge and output tax not discharged** | | | |
| 2 | Reverse charge not discharged on import of services — 3 documents, Rs. 32,775 | 32,775 | Cash outflow |
| | **Sub-total — B** | **32,775** | |
| | **TOTAL TAX PAYABLE (A + B)** | **9,09,826** | **Payable** |
| **E. Less: input tax credit re-available** | | | |
| 2 | Reverse charge not discharged on import of services — 3 documents, Rs. 32,775 | (32,775) | Recoverable |
| | **NET CASH OUTFLOW BEFORE INTEREST** | **8,77,051** | **Net payable** |
| **F. Contingent — pending details** | | | |
| 6 | Disposal of fixed assets without tax invoice — Section 18(6) — FA-0723 | 3,78,000 | Contingent |
| | **Sub-total — F** | **3,78,000** | |
| **G. Recoverable — in the company's favour** | | | |
| 4 | Balance lying unutilised in the electronic cash ledger | 24,75,430 | In your favour |

*Interest under Section 50 is payable in addition on amounts under heads A to D from the respective due dates — indicative interest to the computation date: Rs. 69,911. Potential penalties under Section 73, 74 or 74A, estimated at Rs. 97,705, are not included in any total and are subject to legal conditions and professional review. 2 unquantified observation(s) (Obs. 3, 5) are excluded from all totals.*

### The Five Items That Matter Most

| Obs. | Issue | Amount (₹) | Why it is urgent |
|---|---|---|---|
| 1 | IGST credit availed on a nil-duty FTWZ / warehoused bill of entry — 8047642 | **8,77,051** | Immediate escalation required |
| 2 | Reverse charge not discharged on import of services — 3 documents, Rs. 32,775 | **32,775** | Exposure requires prompt verification |

Confidential — prepared exclusively for Helix Diagnostics Manufacturing Private Limited. Not to be circulated without the written consent of HIRA Associates.

| Obs. | Issue | Amount (₹) | Why it is urgent |
|---|---|---|---|
| 3 | Tax declared in the Cess field of e-way bills instead of IGST | **To be quantified** | Confirmed from records; interest accrues until regularised |
| 5 | Export invoices filed in GSTR-1 without shipping bill number, date and port code | **To be quantified** | Confirmed from records; interest accrues until regularised |
| 6 | Disposal of fixed assets without tax invoice — Section 18(6) — FA-0723 | **3,78,000 (contingent)** | Exposure requires prompt verification |

**Bottom line:** A gross quantified tax liability of approximately Rs. 9,09,826 has been identified, of which Rs. 8,77,051 is the net cash outflow before interest after credit that becomes re-available. Against this, Rs. 24,75,430 is recoverable or available for transfer in the company's favour. 2 observation(s) remain unquantified pending records and are not included in these figures.

## 3. Engagement Background and Scope

HIRA Associates carried out a GST Health Check for Helix Diagnostics Manufacturing Private Limited covering the period 01/04/2026 to 30/06/2026, with the object of identifying compliance gaps, quantifying the tax exposure and setting out precise corrective action. Each observation is supported by the underlying voucher, document or portal record.

### Registrations and locations covered

| GSTIN | Locations |
|---|---|
| 19AABCH2468K1ZA | — |
| 27AABCH2468K1ZD | — |
| 29AABCH2468K1Z9 | — |

## 4. Audit Methodology and Risk Grading

Records furnished by the company were imported with row-level lineage and validated for GSTIN, dates, tax arithmetic and duplicates. Books, GST returns, e-invoice and e-way bill data, customs records and electronic ledgers were reconciled document by document using deterministic matching with a rounding tolerance of Rs. 1.00 per document. Exceptions were investigated and only those confirmed or reasonably supported were raised as observations, each reviewed and approved by a manager. Tax amounts are indicative and based on the records made available; interest is computed under Section 50 at the notified rate to the computation date, and potential penalties are shown separately and are subject to legal conditions. Where an amount is shown as "to be quantified", the exposure exists but the data needed to compute it was not available.

Risk grades: Critical — significant or urgent exposure requiring immediate escalation. High — material or legally significant exposure, time-barred items or matters attracting extended limitation. Medium — quantifiable exposure within the normal period, or a control weakness requiring correction. Low — documentary or procedural defect with limited financial consequence. Opportunity — potential refund, recovery or working-capital improvement.

Each observation is set out under the following fields: Observation — the fact as found, with the document, voucher or portal record it rests on; Legal Framework — the sections, rules, notifications and circulars that govern the point, cited by number so that the position can be verified independently; Financial Implication; Root Cause; Action Required — the specific steps to be taken, addressing both the transaction and the control that allowed it; Preventive Control; and, where received and approved, the Management Response.

Confidential — prepared exclusively for Helix Diagnostics Manufacturing Private Limited. Not to be circulated without the written consent of HIRA Associates.

## 5. Summary of Observations

| Sr. | Observation | Category | GSTIN / Location | Impact (Rs.) | Risk |
|---|---|---|---|---|---|
| 1 | IGST credit availed on a nil-duty FTWZ / warehoused bill of entry — 8047642 | Imports / Customs | 27AABCH2468K1ZD | 8,77,051 | Critical |
| 2 | Reverse charge not discharged on import of services — 3 documents, Rs. 32,775 | RCM Default | Entity | 32,775 | High |
| 3 | Tax declared in the Cess field of e-way bills instead of IGST | E-Way Bill | 27AABCH2468K1ZD | To be quantified | High |
| 4 | Balance lying unutilised in the electronic cash ledger | Ledgers / Working Capital | Entity | 24,75,430 recoverable | Opportunity |
| 5 | Export invoices filed in GSTR-1 without shipping bill number, date and port code | Export / Zero-Rating | 27AABCH2468K1ZD | To be quantified | High |
| 6 | Disposal of fixed assets without tax invoice — Section 18(6) — FA-0723 | Fixed Assets | Entity | 3,78,000 (- contingent) | High |

# 6. Detailed Audit Observations

## Observation 1: IGST credit availed on a nil-duty FTWZ / warehoused bill of entry — 8047642

Category: **Imports / Customs** | Indicative impact: **Rs. 8,77,051** | Risk: **Critical** | 27AABCH2468K1ZD

### A. OBSERVATION

IGST credit of ₹8,77,051.00 has been availed against bill of entry 8047642 dated 13/04/2026 (FTWZ (Warehouse)) on which IGST paid is ₹0.00; credit is not available for tax not paid.

### B. LEGAL FRAMEWORK

Legal Review Required.

### C. FINANCIAL IMPLICATION

Tax of ₹8,77,051 (IGST ₹8,77,051, CGST ₹0, SGST ₹0). Indicative interest of ₹67,905 computed to 24/10/2026 under Section 50 at 18% p.a. from the respective due dates. Potential penalty (Higher of 10% of tax or ₹10,000 — Section 74A) of ₹87,705 is disclosed separately and is subject to legal conditions and professional review. Demand provision for the period: Section 74A CGST Act — FY 2026-27; notice to be issued by 30/06/2031.

### E. ACTION REQUIRED

Reverse ineligible ITC with interest and implement BOE-type based ITC rules.

Calculation reference 9bfa6956 · engine 2026.10.1 · 1a0acc7ef43c

## Observation 2: Reverse charge not discharged on import of services — 3 documents, Rs. 32,775

Category: **RCM Default** | Indicative impact: **Rs. 32,775** | Risk: **High**

### A. OBSERVATION

3 instances of "reverse charge not discharged on import of services" were identified from the reconciliation of the records furnished:

- SER/2627/632 dated 18/05/2026 (CloudLab Inc): Voucher SER/2627/632 (Software Expenses) records a payment of ₹23,267.00 to an overseas party; IGST under reverse charge of ₹4,188.06 at 18% (rate assumed — confirm classification) does not appear to have been discharged (Section 5(3) IGST Act; import of services). Indicative interest to 24/10/2026: ₹260.00.
- SER/2627/1498 dated 23/05/2026 (DataSuite Ltd): Voucher SER/2627/1498 (Software Expenses) records a payment of ₹1,47,256.00 to an overseas party; IGST under reverse charge of ₹26,506.08 at 18% (rate assumed — confirm classification) does not appear to have been discharged (Section 5(3) IGST Act; import of services). Indicative interest to 24/10/2026: ₹1,647.00.
- BP/2627/358 dated 11/06/2026 (Helix Holdings KK): Voucher BP/2627/358 (Insurance Expenses) records a payment of ₹11,562.00 to an overseas party; IGST under reverse charge of ₹2,081.16 at 18% (rate assumed — confirm classification) does not appear to have been discharged (Section 5(3) IGST Act; import of services). Indicative interest to 24/10/2026: ₹99.00.

Confidential — prepared exclusively for Helix Diagnostics Manufacturing Private Limited. Not to be circulated without the written consent of HIRA Associates.

### B. LEGAL FRAMEWORK

Legal Review Required.

### C. FINANCIAL IMPLICATION

Tax of ₹32,775 (IGST ₹32,775, CGST ₹0, SGST ₹0). Indicative interest of ₹2,006 computed to 24/10/2026 under Section 50 at 18% p.a. from the respective due dates. Credit of ₹32,775 is re-available on discharge, so the net cost is principally interest. Potential penalty (Higher of 10% of tax or ₹10,000 — Section 74A) of ₹10,000 is disclosed separately and is subject to legal conditions and professional review. Demand provision for the period: Section 74A CGST Act — FY 2026-27; notice to be issued by 30/06/2031.

### E. ACTION REQUIRED

Pay IGST with interest, claim ITC, and include GST RCM check in the foreign remittance approval workflow.

Calculation reference 56d7fe44 · engine 2026.10.1 · 541e88e0267e

## Observation 3: Tax declared in the Cess field of e-way bills instead of IGST

Category: **E-Way Bill** | Indicative impact: **To be quantified** | Risk: **High** | 27AABCH2468K1ZD

### A. OBSERVATION

3 e-way bill(s) declare tax of ₹99,312.89 in the Cess field instead of IGST/CGST/SGST; the documents misstate the tax head and are exposed to detention under Section 129.

### B. LEGAL FRAMEWORK

Legal Review Required.

### C. FINANCIAL IMPLICATION

To be quantified — the records needed to compute the exposure were not available.

### E. ACTION REQUIRED

Fix integration mapping and update EWB within allowed window or cancel and regenerate.

Calculation reference bab19f33 · engine 2026.10.1 · a8db6cc4f5ef

## Observation 4: Balance lying unutilised in the electronic cash ledger

Category: **Ledgers / Working Capital** | Indicative impact: **Rs. 24,75,430 recoverable** | Risk: **Opportunity**

### A. OBSERVATION

Electronic cash ledger balance of ₹24,75,430.00 is lying unutilised; it can be applied against liabilities, transferred to another registration of the same PAN through Form GST PMT-09, or claimed as a refund.

### B. LEGAL FRAMEWORK

Legal Review Required.

Confidential — prepared exclusively for Helix Diagnostics Manufacturing Private Limited. Not to be circulated without the written consent of HIRA Associates.

### C. FINANCIAL IMPLICATION

Amount recoverable / available: ₹24,75,430. Demand provision for the period: Section 74A CGST Act — FY 2026-27; notice to be issued by 30/06/2031.

### E. ACTION REQUIRED

Transfer via PMT-09, utilise in next return, or claim refund.

Calculation reference 40b5ba2f · engine 2026.10.1 · e1229f2d90dd

## Observation 5: Export invoices filed in GSTR-1 without shipping bill number, date and port code

Category: **Export / Zero-Rating** | Indicative impact: **To be quantified** | Risk: **High** | 27AABCH2468K1ZD

### A. OBSERVATION

3 export invoice(s) aggregating ₹29,25,000.00 are reported in GSTR-1 Table 6A without shipping bill number, date and/or port code; the data cannot be transmitted to ICEGATE and zero-rating is unsupported on the return (amend through Table 9A within the Section 37(3) window).

### B. LEGAL FRAMEWORK

Legal Review Required.

### C. FINANCIAL IMPLICATION

To be quantified — the records needed to compute the exposure were not available.

### E. ACTION REQUIRED

Amend through Table 9A and include SB capture in post-shipment process.

Calculation reference bb47e429 · engine 2026.10.1 · 85cdbe6b9587

## Observation 6: Disposal of fixed assets without tax invoice — Section 18(6) — FA-0723

Category: **Fixed Assets** | Indicative impact: **Rs. 3,78,000 (contingent)** | Risk: **High**

### A. OBSERVATION

Fixed asset "HLC-723 G8 analyser" disposed on 12/06/2026 for ₹21,00,000.00 with no matching tax invoice in the sales register. Tax under Section 18(6)/Rule 44(6): higher of ₹2,30,400.00 (ITC less 5% × 12 quarters) and ₹3,78,000.00 = ₹3,78,000.00.

### B. LEGAL FRAMEWORK

Legal Review Required.

### C. FINANCIAL IMPLICATION

Contingent exposure of ₹3,78,000 pending details. Demand provision for the period: Section 74A CGST Act — FY 2026-27; notice to be issued by 30/06/2031.

Confidential — prepared exclusively for Helix Diagnostics Manufacturing Private Limited. Not to be circulated without the written consent of HIRA Associates.

## E. ACTION REQUIRED

Pay differential with interest and integrate disposal workflow with GST computation.

Calculation reference 2a3e14d2 · engine 2026.10.1 · 35d3a9bdc7f9

DRAFT

# 7. Priority Action Plan

The sequence below is ordered by urgency. Items with a statutory cut-off are placed first, followed by the amounts that carry interest for as long as they remain unpaid.

| Sr. | Action | Amount (Rs.) | Timeline |
|---|---|---|---|
| Corrective actions are to be agreed with management. | | | |

# 8. GST Compliance Improvement Roadmap

## Monthly review controls

- Match bills of entry with the purchase register and GSTR-2B (IMPG); never avail credit on nil-duty or warehoused bills of entry.
- Screen foreign payments and notified-service expense heads for reverse charge before payments are released; raise self-invoices within 30 days.
- Reconcile e-way bills (including cancelled and discarded) with dispatches; verify tax-head mapping in the e-way bill master.
- Review electronic cash and credit ledgers; use PMT-09 for idle balances and reconcile ECRRS.
- Run the ICEGATE transmission status report before and after filing GSTR-1; treat failures as filing exceptions.

## Quarterly review controls

- Review fixed-asset disposals and transfers for Section 18(6) tax and invoices.

## Annual review controls

- Renew the LUT before 31 March and amend Table 6A particulars before 30 November.

## Audit coverage

| Measure | Result |
|---|---|
| Applicable audit controls | 140 |
| Audit coverage (controls adequately tested) | 28.6% (40) |
| Compliance exception rate | 27.5% (11 controls) |
| Controls awaiting documents | 0 |
| Evidence completeness | 0% (0 of 23) |
| Controls not applicable | 0 |

*Applicable audit controls tested: 28.6%. 100 controls remain unverified. Exceptions were identified in 11 of 40 tested control(s). This report is not a certificate of GST compliance.*

DRAFT
